

## **COLE HALL STEEPLE**

The Town of Shaftsbury was the recipient of a "Historic Preservation Grant" for the year 2009. The purpose of the grant was to make necessary repairs to Cole Hall to correct structural deficiencies and make the building watertight. Included in the project were repairs to the roof slate, cornices, steeple siding, resetting windows, and replacing flashings. The double front doors were reset and made watertight, and there was some re-pointing of the chimney and foundation. Compare the inset photo (before) with the new look.
